

## Do you want to help those supporting democratic changes in Ukraine?

We are collecting for those who have been injured and suffered repression.

**Join the public fundraiser coordinated by the Education for Democracy Foundation (Fundacja Edukacja dla Demokracji).**

At this very moment there are **thousands** of wounded people in Kyiv and other Ukrainian cities. Let's raise money together for those injured and others who are the victims of repression in Ukraine. Join us! Your help today is of the utmost importance!

**Your donation will first be used to cover the costs of medicines, medical aid, bandages and food for people in hospitals in Kyiv and other Ukrainian cities.** This includes the field hospital near Maidan. These are the most critical and immediate needs.

The remaining donations will go to **people — and their families — who have been the target of repression during the last few months** for supporting democratic changes in Ukraine. Some protesters wounded in Maidan are currently being treated at Polish hospitals in Warsaw. Some of the funds raised will also be used to partially support this initiative.

In the 1980s the Polish people were able to count on the support and solidarity of those who were already living in free and democratic countries.

Let's support Ukrainians today in their struggle for a better future.
